Thursday 7th November 2024

Dear Parents and Carers,

Our new Eco Ambassadors Committee have been busy planning ideas for the year ahead and for the month of November, they have decided to run the 'Cut Your Carbon' campaign. This is a national campaign run by Eco Schools, with the simple aim to cut the carbon emissions of each family in our school, which will help to reduce the effects of climate change in our school community.

The Eco Ambassadors will introduce the campaign to the children in Friday's assembly. Please find attached the checklist for your family to try to work through before the end of November, along with the rationale for each target on the checklist. The Eco Ambassadors will visit classes at the end of the month to do a simple survey to find out how many children have achieved each target. The class with the most children taking part will win some extra playtime. Additionally, if many children take part, we have the chance to win a mural for our school grounds.

The key message the Eco Ambassadors want to give is that we can all make a difference and play our part in reducing climate change by making a few small changes. We look forward to seeing the results at the end of November.

Yours sincerely,

Mrs H Wing
Eco Ambassadors Leader
